It's about capturing the moment

It's the biggest day of your life, you've put months of planning into it, and you want a photographer that will capture every precious moment.

This is what I aim to do, and I do it with a relaxed, unobtrusive, photo journalist style.

The result is a natural and beautiful set of photographs that both you and your guests will love for years to come.

Rates and albums

I offer three packages to suit different requirements and budgets. Want to customise a package? No problem, just give me a call or drop me an email.

My albums are produced by Kiss Wedding Books, and printed on Fuji Crystal Archival paper that will never discolour. The pages are split with a micro-fold, not a cut, so the binding lays beautifully flat. What's more they come in a range of wonderful contemporary colours.
